Oysters are a perfect ESSSP, as most oyster farms have a positive net effect on their micro-environment. As a general rule, most oysters arrive into the Bay area twice a week - Mondays & Thursdays. Advance orders are helpful, even necessary, on many of the premium-priced varieties. The list below is a representative sample of what's available, and where they're from.

DID YOU KNOW.....

That the listing above comprises only five (5) species of Oysters? There are gigas and virginicas, and the last three on the list are three separate species (Kumamoto, Belon, and Olympia). That only the Olympia is native to our Pacific Ocean?
